

ATTAIN INSIGHT MAP INTELLIGENCE™

For Esri ArcGIS® and
Business Intelligence Tools

Map Intelligence is a geospatial analytics solution that provides high-performance integration of Esri ArcGIS maps into Business Intelligence tools.

Attain Insight was recognized by CIO Applications magazine as a Top Esri Solution Provider in 2022, for providing a unique and innovative solution incorporating Esri's leading mapping capabilities.

OVERVIEW

Attain Insight Map Intelligence is a rich and fully supported platform that provides display and analysis of location data in Business Intelligence applications. Map Intelligence delivers direct, dynamic, and high-performance integration of Esri ArcGIS maps to IBM Cognos Analytics™ and SAP® BusinessObjects™, providing users with advanced spatial analytic features and visualization capabilities.

KEY BENEFITS

- Enhanced Esri spatial visualizations available directly within BI Tools.
- Allows BI users to easily access spatial data and maps in a self-service environment, with no custom integration or coding required.
- Scalable to 1000's of users.
- Add maps and power visualizations to existing reports and dashboards.
- Solve advanced time and distance business problems by combining business data with Esri's powerful location analysis capabilities.
- Leverage existing Business Intelligence and Esri ArcGIS mapping investments.

WHAT MAP INTELLIGENCE CUSTOMERS ARE SAYING

LAW ENFORCEMENT

"Map Intelligence has allowed the organization to leverage its significant investment in BI and GIS."

John Weippert, Northern Territory Police Service

TELECOMMUNICATIONS

"Attain Insight demonstrated the power of what the product could do. You can graph this information all you want, but a picture is worth a thousand words."

Dan Robinson, Bell Business Markets

GOVERNMENT

"Our Managers can now do their own highly visual reports without the need for specialist programmers."

John Garvey, Australia Fisheries Management Authority
